

Hot and Chilled Water Coil

- Heating and Cooling Coils come in all shapes and sizes.
- Usually used for dry coolers, fan coils, air heaters or coolers and air handling units.
- The headers of hot / cold water coils are made of carbon steel for large sizes and copper for small size as a standard.
- Hygiene coils are manufactured by copper header. (Stainless steel header is optional)
- Connections are external threaded as standard or with flanges on request.
- All headers are provided with vent and drain fittings.
- Sliding collars and free holes system combination are used in end sheets
